GOVERNOR SWANSON GIVES VIEWS AS TO STATES' RIGHT

In An Article in the Milwaukee Journal He Discusses the Question From Every View Point.

RICHMOND, VA., Aug. 13.—The question of States' rights is discussed by Governor Swanson in a copyrighted article published in the Milwaukee Journal. The Governor discusses the matter from every viewpoint, but what he says is really a reiteration of what the executive has publicly said before. The general trend of the article seems to be that the railroads are seeking, through the United States Supreme Court, to give the Federal judges the right to control both interstate and intrastate traffic.

In relation to the injunction issued by Judge Pritchard in the North Carolina and Virginia cases, the Governor says in part: "If this decision is sustained it is a most serious encroachment upon the rights and prerogatives of the legislative bodies of all States. Before this decision it had been uniformly held that the duty of a judge was to construe law and not to interfere in any way with its enactment. Another remarkable portion of Judge Pritchard's order was that it prevented the Corporation Commission of Virginia from publishing its order and making it effective against roads which were not complaining, and which had not requested the injunction, and were willing to acquiesce."

In the order of the commission as to the rates when made effective.

"The position of the Federal judge in this case is destructive of the legislative institutions of Virginia, and, if sustained, marks the beginning of the control and subordination of legislative bodies to the authority of Federal judges."

SHIPS TO TOUCH JAPAN.

Maryland to Enter Yokohama On The Way Home.

WASHINGTON, August 13.—Rear Admiral Dayton, commanding the Pacific fleet, has cabled the Navy Department that the armored cruiser Maryland, West Virginia and Colorado left Cavite, P. I., for Yokohama on their way to San Francisco, in accordance with orders issued by the department several weeks ago.

After leaving the Japanese port the squadron will shape its course for Honolulu, which will be its only stop in the Pacific Ocean. Proceeding at ordinary speed it will take the squadron about five or six weeks to make the run to San Francisco.

The visit to Yokohama is one of courtesy and clearly demonstrates the friendly relations between the governments of Japan and the United States.

MARKET TONE BETTER, BUT IT WAS FEVERISH

Recoveries Were the Rule and the Recent Liquidations Seem to Have Run Their Course.

OVER A MILLION SHARES SOLD

The Great Bulk of Trading Was in Union Pacific, Reading, Steel and Amalgamated Copper—Canadian Pacific Makes Good Report—The Total Sales and Closing Quotations.

(By Associated Press.)

NEW YORK, Aug. 13.—A vastly better tone was shown by the stock market today, though the movement was narrow and at times feverish. Substantial recoveries were the rule and the recent liquidation seemed to have run its course. There was little in the day's developments to bring about this change other than a vague report that some statement of a conciliatory and reassuring character shortly would emanate from the seat of the national government. Color was lent to this by the presence in town of several distinguished representatives of the administration. Information that the Federal authorities had decided to inaugurate a new anti-trust policy and the reopening of the Chicago & Alton case produced a feeling of uneasiness. The upward movement gathered its greatest momentum in the final hour. Prices shaded slightly from the best of the day on profit taking, but the closing was strong. The great bulk of the day's trading, which again exceeded a million shares, was in Union Pacific, Reading, Steel and Amalgamated Copper. The time money market displayed increased firmness.

Many of the local banks are out of the money market and much of the money played today was for Philadelphia, Boston and Chicago institutions. Private shipments of currency to the West and South continued in moderate volume but the demand promises to become more urgent shortly. The only important railroad return of the day was the annual report of the Canadian Pacific road, which showed an increase of more than \$2,300,000 in net, with a substantial gain in the final surplus. The company also declared the usual "extra" dividend of one-half of one per cent.

The bond market was irregular. The total sales par value were \$1,740,000. U. S. 4's declined 1/4 per cent on call. Total sales today: 108,500 shares including: Copper 107,500; Smelting 50,500; Atlantic Coast Line 500; C. & O. 2,200; St. Paul 29,700; L. & N. 1,100; N. Y. THINK BANKER IS IN CANADA.

INDIANAPOLIS, Aug. 13.—The State authorities believe that President Hugh Burrell of the wrecked People's State Bank of Brownstown has made his way to Canada. The latest developments show that he lost \$35,000 in speculations without authority of the directors. Bank Examiner Camp and Deputy Oglesby have discovered that three citizens of Brownstown were associated with Burrell in his speculations and they are now under surveillance. "These three citizens," said Mr. Oglesby, "who assisted Burrell in plundering the bank drew out money in unauthorized ways and for illegal purposes. They signed notes, but not with their own signatures. There are forgeries to the amount of several thousands of dollars that are not Hugh Burrell's. All of these men and their relations with Burrell and the bank are being investigated by Prosecutor Swails of Jackson county."

Slaughtered 5,500 Dogs for Food.

WASHINGTON, D. C., August 13.—Consul Thomas H. Norton, of Chemnitz, in a report to the Department of Commerce and Labor, says that the prevalence for a year past of unusually high prices for all meat products throughout Germany has been the cause of widespread discussion and agitation, and has necessarily affected the dietary of a large share of the working class.

In this connection, says the report, the growing use of the flesh of dogs as an article of food is worthy of note. The number of dog carcasses submitted to official inspection now amounts annually to about 5,500 in the German empire. Saxony alone reports over 2,000, and of these 940 fall to the share of Chemnitz and the section administratively connected with it. Horseflesh is now a standard article of dog consumption in Germany. About 75,000 carcasses annually are inspected for this purpose.
